into the desired shape during the manufacturing process. Preforming can reduce the stress on the waveguide and the joints, and it is recommended in waveguides that will be bent close to the minimum static bend radius. Preforming may be carried out on all TWS Flexible Waveguides, Side Seam and Seamless waveguides. If a permanent twist is required the TWS Flexible Only Waveguides may be

Manufacturing Wikipedia

Manufacturing engineering or manufacturing process are the steps through which raw materials are transformed into a final product. The manufacturing process begins with the product design, and materials specification from which the product is made. These materials are then modified through manufacturing processes to become the required part.
